

Off-Site Improvement Flow Chart based on TMC Table 2.19.1

(1) Limits listed are approximate, and the Planning and Development Services Director, or designee, may impose additional requirements as needed to protect the health, safety, and general welfare of the public.  
 (2) Costs for utility construction or relocation and safety mitigation measures shall not be included in the owner's/developer's percentage of off-site improvement requirements. Off-site improvement requirements contributing to the percentage shall include, but not be limited to: street paving, concrete curbs and gutters, asphalt wedge curb, sidewalks, driveways, and curb ramps.  
 (3) For Campus sites, the City Engineer, or designee, shall determine the required frontage improvements.  
 (4) The Remodel Valuation limit shall be defined as the estimated construction cost of the project submitted by the contractor or owner at time of permit submittal as a percentage of the most recent version of the [International Code Council Building Valuation Data](#). The estimate shall detail all major cost elements of the project. The remodel valuation limit shall not apply to projects that have requirements imposed by a SEPA, CUP, or other conditioning document.

This flow chart is meant to be used as a communication tool and does not substitute for codes and regulations. The applicant is responsible for compliance with all codes and regulations, whether or not they are described in this document.
